

**REFRIGERATED
LOGISTICS CENTRE**

FRIGODOM's expertise dedicated to serving New-Caledonia

The FRIGODOM network: refrigerated logistics partner for more than 10 years

FRIGODOM is the only warehousing concept of its kind in the world, developed by Didier Mayenobe in Martinique. The FRIGODOM network has developed over 238 000 m³ of refrigerated storage cold-rooms, located in Martinique, Guadeloupe, Guyana, Saint-Martin, Reunion island and New-Caledonia.

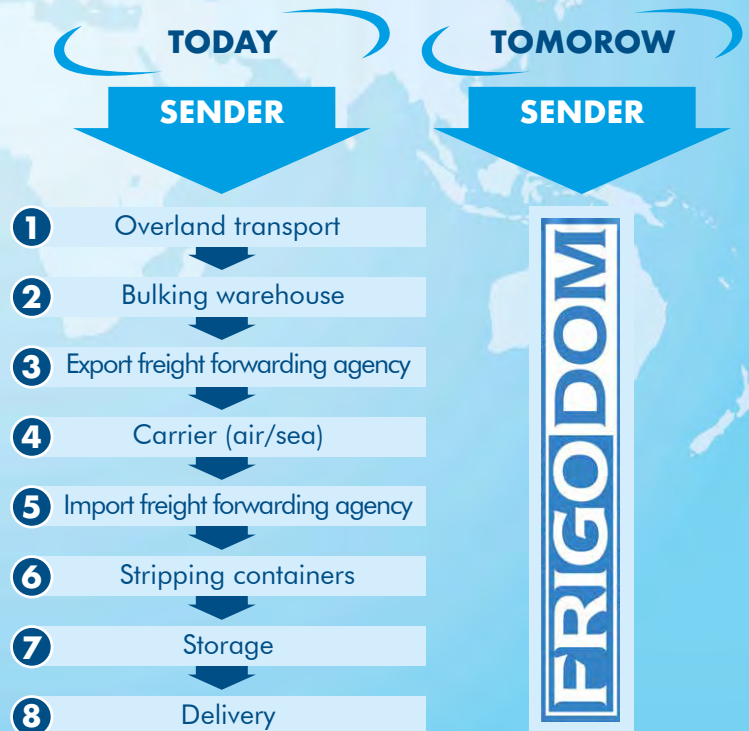

The concept relies on highly optimized storage space and goods handling, through ingenious

layouts and effective administrative data processing.

This is truly an important innovation in the warehousing industry, to the benefit of companies who are now able to focus on their core business : sales.

In the Caribbean, LOGIDOM offers the same services for dry goods storage.

A customized supply chain management

FRIGODOM in New-Caledonia is :

FRIGODOM NC is based on the same FRIGODOM warehousing concept :

- The experience and the monitoring of FRIGODOM network from the building conception to its operation,
- A 23 000 m³ refrigerated warehouse located in Paita (ZIPAD PANDA)

FRIGODOM NC benefits from FRIGODOM expertise and innovation regarding the construction and operating of the cold room.

FRIGODOM NC is also :

- The reduction of logistics costs through resource sharing
- Stock's financial guarantee from start to finish
- Online tracking throughout the supply chain
- A responsive, customized, and flexible service
- The respect of cold chain norms and principles
- The neutrality and independence of a family group regarding large retailers

A responsive and customized service for all type of activities
